

DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 4-21-2011 has been entered.

Claim Rejections - 35 USC § 101

2. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

3. Claim 25 is rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. The claim recites the limitation "a storage medium having computer-executable instruction encoded" because the specification does not clearly identify the medium, the broadest reasonable interpretation will be that the medium is an intangible carrier wave that store the data from point a to point b. Therefore, the claim is directed to a non-statutory subject matter.

Allowable Subject Matter

4. Claims 1-24 are allowed.
5. The following is a statement of reasons for the indication of allowable subject matter: The new amended limitations in combination with the previous limitations have not been found or fairly suggested in the prior art search. Please, also see additional explanation in the prior office action mailed 2-16-2011
